

Dear CanCham BeLux members and friends,

On behalf of the CanCham BeLux Board of Directors, I would like to thank you for your ongoing support and interest in our Chamber.

Since the foundation of our Chamber on 21<sup>st</sup> of April 1945, our objective has always been to actively contribute to the development of the economic relationship between Canada, Belgium and Luxembourg.

During these decades, with the support of the Canadian officials in Brussels, our Chamber has been building in the heart of Europe a strong intercontinental bridge ‘A mari usque ad mare’ (“From sea to sea” as the Canadian national motto says) between these three particular countries.

During these decades, we have hosted or co-hosted various successful events, providing an impressive mix of gatherings in which our members and friends could network and expand their global and local business environment.

In the future, we will continue to evolve and make changes, and will successfully connect with our members, providing opportunities to enhance connections between Belgium, Luxembourg and Canada companies.

CanCham BeLux will continue its efforts to be your partner and to offer you the opportunity to develop your international business network.

“Together we are stronger” (as the Belgian national motto says); this is our credo also and we invite you to consider the CanCham BeLux as your tribune, as your partner and as an effective business connection.

We thank you for your participation, your support and your interest in the activities of our Chamber.

JP Tanghe  
Chairman
